Dear Sir:

In response to the election of species requirement set forth in the Office Action mailed June 30, 2008, Applicant elects Species (A) according to first embodiment of Figures 2-16, on which claims 1-7, 14-20, 23, 24, and 28-35 read, without traverse for continued examination. Applicant submits that claim 1 is generic to species (A)-(N) because claim 1 is directed to a optical multiplexer/demultiplexer having plurality of wavelength selecting elements, a transmission means, plurality of light emitting elements, and a deflection element, and this is generic to the embodiments shown in Figures 17-63. The remaining claims read on one or more of the Species (B)-(N).

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 50-0591, under Order No. 15250/006001 from which the undersigned is authorized to draw.

Dated: July 30, 2008

Respectfully submitted,
